

## punch across/skip

**9** Standing with your feet slightly wider than hip-width apart, knees soft and pointing forward, punch one arm across your body for a total of 8 times, keeping the other fist tucked under your chin. Punch with the fist facing down. Repeat on the opposite side then, keeping your lower body in the same position, punch across your body, alternating sides for a total of 8 reps.

**10** Bring your feet together, arms by your sides, and “skip” with an imaginary rope, alternating feet. Come up onto the balls of your feet as you lift your feet very slightly off the floor. As you “skip,” make a small circular motion with your hands, as if you were turning the rope. Repeat for a total of 32 skips.
