

side step/back step

5

With hands on hips, take a step to one side, then bring your feet together.

Repeat to the other side. Repeat for a total of 4 reps, then swing your arms in the same direction that you are stepping. Your arms should be relaxed and raised no higher than shoulder-height. Repeat for a total of 8 reps.

6

With hands on hips, touch one foot on the floor behind you.

Return to center and repeat with the opposite foot. Keep your weight centered as you alternate legs. Repeat for a total of 4 reps, then add an arm push in time with your leg movements by pushing both arms forward and back just below shoulder-height. Repeat for a total of 8 reps.

keep your knees soft and in line with your toes

feel it here

relax the shoulders as you push the arms forward
