

lunge/ski run with hop

17

Starting with both feet together, hands on hips, step forward on one foot into a lunge position. Come up, bringing your feet back together, then repeat on the other side. Make sure your hips are square and your knees are in line with your toes. Keep your back straight and your neck and spine in line. Repeat, alternating sides, for a total of 4 reps.

18

Starting with both feet together, take a diagonal step forward, adding a little hop, and swinging your arms across your body in the same direction. Bring the second foot to the first, then step and hop to the other side, swinging your arms the other way. Keep your knees bent and your body low to the ground. Take 4 steps forward, alternating from side to side in a skiing motion, then take 4 steps back in the same way for a total of 8 reps.

Repeat Step 10, then Steps 9–12, then Step 10 again, then Steps 13–15, then Step 10 again, then Steps 16–18, and finally, Step 10 again.
