23 Take a step to one side and bend that knee, keeping the knee directly over the toes. Take your hands to the bent-leg thigh and lean forward, stretching the other leg out to the side. Make sure your neck and spine stay in line, and keep your back long and straight. You should feel a stretch in the inner thigh of the outstretched leg. Repeat on the other side.

24 Stand tall with feet hip-width apart, arms stretched above your head, shoulders relaxed, and neck and spine in line. Slowly lower your arms and bring your chin toward your chest, then round your back and slowly bend down toward the floor. When you are as low as possible, your hands should be relaxed and as near to the

floor as is comfortable. Take a deep breath into your lower back. Then, keeping your tummy pulled into your lower back, uncurl slowly, one vertebra at a time, until you have returned to a standing position.
