

the swivel/step dig

9 Raise your arms above your head, keeping your feet together and knees slightly bent. Rotate your body counterclockwise, leading with your hips and arms. Pivot on your feet until you have completed a full rotation. Repeat, turning in the opposite direction.

feel it here

keep shoulders relaxed and arms soft

10 Starting with your feet together, bend the knees slightly, step forward onto one foot, bend the same arm at the elbow, and have the other arm by your side. Lift the heel of the opposite foot. Your body is slightly forward in a crouching position. Then step back and dig the heel of the front foot into the floor, taking the arm by your side and bending the other arm at the elbow. Repeat for a total of 8 reps. Change sides and repeat for 8 reps.
