- 27** Place your left leg on top of your right and bring your arms straight out in front of your torso. Circle your left arm over your head, trying to keep your knees together and your hips square (inset). Then turn your head to follow your left hand and relax, stretching out both arms in opposite directions. Roll onto your left side and repeat Steps 26 and 27.

- 28** Lie on your back with your arms by your sides and knees bent, feet flat on the floor and hip-width apart. Lengthen your right leg toward the ceiling and hold onto it comfortably with both hands. Breathing deeply, slowly bring your leg toward your chest, feeling a gentle stretch in the back of the extended leg. Repeat on the other side.
