

>> forward & back 3/heel dig 3

23 Repeat Forward & back 2 (Step 18, inset) for 4 reps, then jog forward, starting with your right foot, then left, right, and feet together. Now step sideways with your right foot, bringing your right elbow out to the side and your left elbow up in front. Step your feet together, then bring your left foot sideways, your right elbow in front, and your left elbow to the side (shown here). Jog back, starting on the right. Repeat one more time.

24 Repeat Heel dig 2 (Step 19, inset) for 8 reps, then lift your left knee. Bring both arms to the center of your body, then cross your left leg in front of your right and do a heel dig with your elbows out to the side. Bring your left knee back up and your arms back to center, then

place your left foot down on the floor to repeat on the other side (shown here). Do a total of 4 reps.

Now repeat all the Level 3 steps, then repeat them again in reverse order.

You have reached the height of your aerobic curve. Finally, repeat the entire sequence in reverse order, starting with Step 24, working back to Step 5, and cutting the number of reps in half to bring your heart rate slowly back to rest.
