

>> lunge opener

- 17 Come onto your hands and knees. Reach one foot forward, take the other leg back, and lean onto the front leg. Lift the groin muscles toward the head and tuck the pelvis under. Clasp the hands and reach them behind your head, holding onto your skull with the heels of the hands. Inhale, open the elbows, and lift the chest.

- 18 Exhale. Bring the elbows to point to the front and down. Repeat, then take the other foot forward and repeat.
