

>> lying hamstring stretch

65

15 Still lying on your back, bend both knees, anchor your pelvis to the floor, lift your groin muscles toward your head, and pull your navel to your spine. Exhale, press your back into the floor, and lift one leg to the ceiling. Take the opposite hand to the lifted leg and hold the outside edge of the lifted foot, or hold lower down the leg if needed. Place the other hand on your thigh, just next to the knee. Inhale and straighten the bottom leg, pressing the calf down to the floor.

16 Exhale and lift the head. Gently press the hand on the thigh away from you. The top foot pulls your leg into the hip socket. Stay for 2 breath cycles, then repeat on the other side. Gently release the legs and thump your thighs against the floor.
