- 17 Come onto your hands and knees, open your knees, reach your arms forward, and squat back, bringing your hips close to your heels. Support your back by lifting the abs. Stay for 2 breath cycles.

- 18 Move your torso and arms forward, and come up on your forearms. Actively press the inner edges of your heels into the floor. Your heels will come apart. Lift the groin muscles toward the head to avoid slumping in the lower back. Stay for 2 breath cycles.
