

>> kneeling side stretch

15

Starting on your hands and knees, place one leg diagonally in front, knee bent, sole of the foot on the floor. Turn both legs out slightly, lower the head, and take the arms in front of you, touching your middle fingers together. Then roll up through the spine and fan your arms open sideways.

16

Tuck your pelvis under and reach your top arm up and over toward the bent leg. Rest your lower forearm on the thigh of the bent leg. Reach up and out through the middle finger of the top arm. Lift the groin muscles toward the head. Stay for 3 breath cycles, then repeat on the other side.
