

>> thigh lunge

85

19 Go onto your hands and knees. Lengthen your back so it is parallel to the floor, like a table top. Reach one foot forward into a lunge position and take your hands to the floor either side of the foot.

20 Tuck the toes of the back foot under, lengthen the leg back behind you, and straighten your back knee. Lift the groin muscles toward the head and, balancing, place one hand and then the other on the front thigh. Press the hands down on the thigh and lift the chest. Stay for 2 breath cycles. Exhale and release, then repeat on the other side.
