

1916

Marshall & Snelgrove This taffeta suit from a London department store echoes the shape of the uniforms worn by female bus conductors during World War I. The hat still features the large crown popular before the war.

1918

Journal des Demoiselles The French *Magazine for Young Women* shows an elegant yet practical dress design. The collar could be attached to a chemisette – a bib-like, fake blouse that did not increase bulk.

1919

Fashion statements There were several ways to enliven the basic silhouette just after the war. Here, drapery and deep pockets add width to the hips. Other options were a short lampshade overskirt or a skirt composed of deep ruffles.

1923

Russian influences After the 1917 Bolshevik Revolution many Russians fled to Paris where some found work as embroiderers. The collar, sleeves, and hip area of this velvet daydress are embroidered with motifs found in Russian folk dress.

Modern woman The American magazine *Elite Styles* specialized in patterns for women's and girls' clothing. The flat-chested, narrow-hipped modern woman could easily slip on this colourful dress and face the day.

BLOUSES

Slip-over blouses, like these two examples from a 1922 pattern book, were popular in the early 1920s. Those intended to be worn over the skirt usually had a band, sash, bow, or other feature at the low waistline. Women could choose from a variety of necklines to complement their jacket or cardigan. Nautical styles remained in favour, blouses with sailor collars being advertised as "middies" in the US after the shirt of the midshipman.
