High-fashion trousers French designer YSL presented the women's tuxedo suit, *Le Smoking*, and it soon became the signature piece of his collection. YSL became well known for empowering women with the option to wear men's styles.

Jump into the future Continuing the interest in outer space and the future that began in the 1960s, the 70s jump suit had ties to futurism and popular science fiction of the era. It became the ultimate in stylish leisurewear, due to its utilitarian functionality.

Feminine print Designed in 1974 by Warsaw-born Barbara Hulanicki for Biba, the British boutique, this cotton floral trouser suit combines a traditional pink and green cabbage-rose print, reminiscent of furnishing fabric, with a contemporary design.

JEANS

Levi's had been around for 100 years but, by the 1960s, they had become the uniform of youth. Hippies wore faded and flared jeans, often customizing them as a part of the anti-fashion movement. "Second skin" or figure-hugging jeans were high waisted to emphasize long legs. The first "branded" jeans were introduced by Gloria Vanderbilt and Calvin Klein and were widely worn by the fashionable elite, such as Bianca Jagger and Jacqueline Kennedy Onassis.

War influence This grey tweed jump suit from Stirling Cooper is a variation on the boiler suit worn by women factory workers during World War II. Inspired by 1940s style, the suit's wide lapels and flared trousers are typical of the 1970s.
