

SOFT SUEDE DAY DRESS

JEAN MUIR

CLASSIC

By the mid-1970s, British designer Jean Muir (1928–1995) was at the height of her success. This knee-length, navy, suede dress is typical of her fluid, timeless clothes: subtly detailed and made from a natural fabric that hangs beautifully to emphasize the female shape, its construction enhancing the wearer's movements. Unlined, the dress is gathered at the neck in a soft frill. It has a beaded tassel decoration and a belt that can be tied front or back. In trademark Muir style, the skirt has two rows of hand-punched eyelets in a dot and teardrop pattern that is repeated around the armhole and on the belt.

Soft frill across the top of the bodice

Topstitching adds subtle detail

Softly flared skirt

Topstitched seams

△ TASSELLED HAT

The hat, custom-made to accompany the dress, is decorated with a matching tassel and topstitched seams. Muir frequently used neat, machine over-stitching on her clothes; it was usually the only decoration needed.

IN DETAIL

◁ DRESS LABEL

Muir launched her own label in 1966. From the outset her name was associated with ageless classics, always flattering, and beautifully feminine.

Belt sits naturally on the waist
