

▲ WEBLEY AND SCOTT PISTOL WITH SUPPRESSOR

Date 1907

Origin UK

Barrel 9¼in (23cm) with suppressor

Caliber 7.65 × 17mm

The Webley and Scott 1907 was one of several automatic pistols manufactured by Webley in the first decades of the 20th century. Fitted with a sound suppressor, or a silencer, this gun was carried by agents of British covert forces in World War II.

Checkered pistol grip

▲ VZ 27 PISTOL WITH SUPPRESSOR

Date 1927

Origin Czechoslovakia

Barrel 8in (20.3cm) with suppressor

Caliber 7.65 × 17mm

The VZ 27 (*vzor* or Model 27) was a compact self-loading pistol designed by Josef Nickl of the Ceska Zbrojovka. The VZ 27 remained in production until 1955. During World War II, the German intelligence service (*Abwehr*) used VZ 27s fitted with sound suppressors (shown here). Later, they were used by the Czech intelligence services.

External suppressor

◀ LUGER P08 WITH SUPPRESSOR

Date 1940s

Origin Germany

Barrel 11¼in (28cm) with suppressor

Caliber 9mm Parabellum

This Luger was used by some British covert forces during World War II. It is fitted with a suppressor for use as an assassination weapon. In many ways, the Luger was best suited to covert, police, and security work, since its mechanical system was vulnerable to the dirt of battlefield use.

▲ WELGUN SMG

Date 1943

Origin UK

Barrel 6½in (16.5cm)

Caliber 9mm Parabellum

The Welgun was a light and compact experimental submachine-gun developed for British covert operations use, but also as an intended airborne forces weapon, a replacement for the troublesome Sten (see p.208). It had a top-folding stock and was fed from a 32-round vertical magazine.
